

Zebra: ZD621R: Alignment

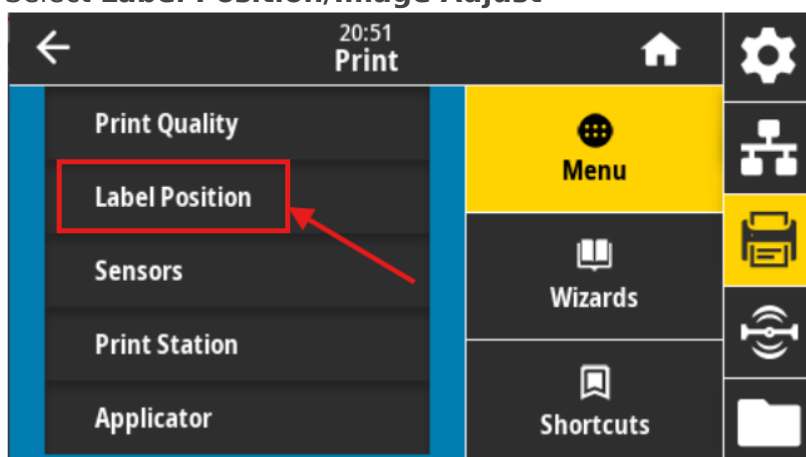

Select **Menu** from the home screen

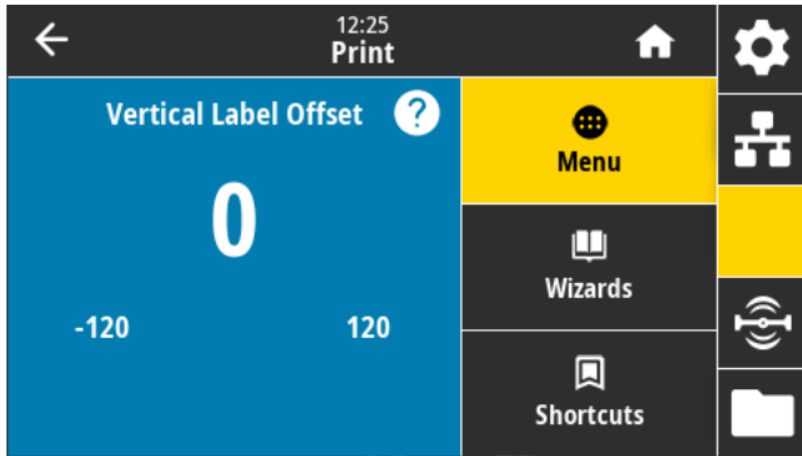

Select the **Print** icon

Select **Label Position/Image Adjust**

Select **Vertical Label Offset** or **Horizontal Label Offset**

5. **Adjust** the value (Accepted values: **-120** to **120**)

Vertical Label Offset: Lower numbers shift everything higher on the label face. Inversely, higher numbers shift everything farther down on the label face, by the specified number of dots.

Horizontal Label Offset: Lower numbers shift everything to the right on the label face. Inversely, higher numbers shift everything to the left on the label face, by the specified number of dots.

Revision #6
