

ApparelMagic: Compare and Sync

If you haven't connected ApparelMagic with Simple RFID yet, follow the instructions here:

[ApparelMagic: Setting up the integration](#)

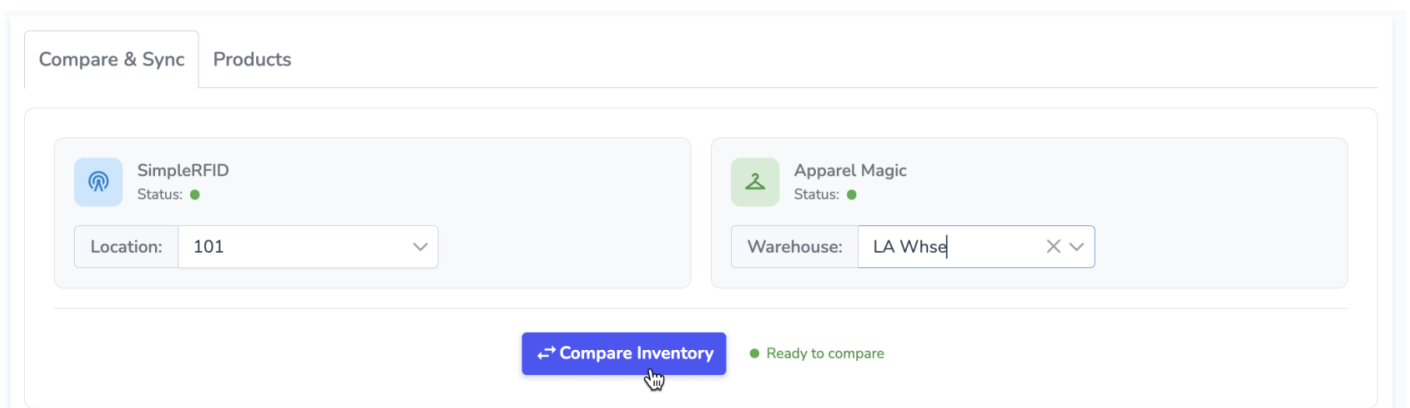

Overview

Access the ApparelMagic integration from the navigation sidebar:

The Compare & Sync page allows you to sync your Simple RFID inventory counts to ApparelMagic.

First, select the locations you want to compare: your Simple RFID location on the left, and your ApparelMagic warehouse on the right. Then, press **Compare Inventory** to load inventory counts from both systems and populate the comparison.

The results are split into two main categories:

- **Unmatched** - Products whose quantities are **not** the same between Simple RFID and ApparelMagic. This category is split further into two subcategories:
 - **Inflated** - Products whose quantities in ApparelMagic are **higher** than those in Simple RFID.

- **Deflated** - Products whose quantities in ApparelMagic are **lower** than those in Simple RFID.
- **Matched** - Products whose quantities are the same between Simple RFID and ApparelMagic and are not equal to 0. These products have no action to be taken since they already match.

SKU	Name	Color	Size	SimpleRFID	Apparel Magic	Difference	<input type="checkbox"/>
DENIM1BLKOS	DENIM1	BLK	OS	19	21	+2	<input type="checkbox"/>
Simple ProductPersimmon32x30	Simple Product	Persimmon	32x30	5	9	+4	<input type="checkbox"/>

Simple ProductPersimmon34x30	Simple Product	Persimmon	34x30	0	9	+9	<input type="checkbox"/>

Sync

Any product in **Unmatched** status can be "synced" to ApparelMagic, meaning the ApparelMagic quantity will be updated to match the Simple RFID quantity.

Syncing creates a Receiver in ApparelMagic. The Vendor name identifies the source of goods. It must be set in order to create the Receiver, so **you must select a Vendor** from the drop-down menu next to the Sync Selected button.

You can sync any or all of the products in the Unmatched list by selecting the check boxes on the right side, then pressing **Sync Selected**.

NOTE: The **Difference** value describes the ApparelMagic total in relation to the Simple RFID total. When you sync, the **opposite** value will be applied, e.g. if an Inflated product has a difference of **+4**, the inventory in ApparelMagic will be adjusted by **-4**.

Unmatched 66 Matched 2

Search... All (66) Inflated (66) Deflated (0) 66 items 1 selected Vendor: Simple ... X v

SKU	Name	Color	Size	SimpleRFID	Apparel Magic	Difference	<input type="checkbox"/>
Simple ProductPersimmon32x30	Simple Product	Persimmon	32x30	5	9	+4	<input checked="" type="checkbox"/>
Simple ProductPersimmon34x32	Simple Product	Persimmon	34x32	0	1	+1	<input type="checkbox"/>
Simple ProductPersimmon36x32	Simple Product	Persimmon	36x32	0	7	+7	<input type="checkbox"/>
Simple ProductPersimmon38x32	Simple Product	Persimmon	38x32	0	3	+3	<input type="checkbox"/>
Simple ProductPersimmon40x32	Simple Product	Persimmon	40x32	0	8	+8	<input type="checkbox"/>
Simple ProductPersimmon42x32	Simple Product	Persimmon	42x32	0	4	+4	<input type="checkbox"/>
Simple ProductPersimmon44x40	Simple Product	Persimmon	44x40	0	3	+3	<input type="checkbox"/>
Simple ProductPersimmon44x42	Simple Product	Persimmon	44x42	0	9	+9	<input type="checkbox"/>

After you Sync, the comparison will be reloaded, and those products will be in **Matched** status.

Unmatched 65 Matched 3

Search... All (3) Inflated (0) Deflated (0) 3 items

SKU	Name	Color	Size	SimpleRFID	Apparel Magic	Difference	<input type="checkbox"/>
Simple ProductPersimmon30x30	Simple Product	Persimmon	30x30	7	7	0	<input type="checkbox"/>
Simple ProductPersimmon30x32	Simple Product	Persimmon	30x32	1	1	0	<input type="checkbox"/>
Simple ProductPersimmon32x30	Simple Product	Persimmon	32x30	5	5	0	<input type="checkbox"/>

Print

For inflated products, you also have the option to print tags for missing items. For example, if you discovered that some items were physically present but weren't RFID tagged, this is a quick way to print the difference.

You can print tags for any or all Inflated products in the list by selecting the check boxes on the right side, then pressing **Print Selected**.
