Simple RFID Label Servicing Profile Created

This form provides Simple RFID with projections, label type needed, GS1 requirements, etc. This provides you with the Terms & Conditions of the Simple RFID Label Servicing Agreement, and includes pricing & contracts.

Destination Location(s) Created

[Create the Location](#) in Simple RFID where you wish to have the labels shipped. This is the default location.

Products Added to Products tab

Ensure that all products are entered into Simple RFID.

If the Products need to be created as GS1 labels, enter the Company Prefix into the Customer Profile tab. If you do not have a Company Prefix and have simply purchased complete UPCs/GTINs, ensure that it is entered into the GTIN & Barcode fields.
