

Reimport Products

If your Shopify products fail to appear in your Simple RFID Products tab, you may need to reimport them manually. Here's how:

Go to the **Products** page in the [SimpleRFID](#) web portal and verify if the item can be found by its name or SKU.

If a product wasn't found, go to the **Products** page under the SimpleRFID app in Shopify.

A product won't be imported, either manually or automatically, if a SKU is missing!

Click the **Add Sku** button. It will open the product properties.

Scroll down to the **Inventory** tile and click **SKU**.

Type in the **SKU** and click **Save**.

Go back to the **Products** page under the SimpleRFID app in Shopify.

Search by Name,SKU...

0 Import to

0 to print

Import All

Name	SKU	Price	Quantity	Imported to	
Import Me	RE-1MP0RT-M3	200.00	50		
		5000000.00	0		
		280.00	138		

If a product has  icon in the **Imported to** column, it's now auto-imported

Products can still be imported manually. Select a product -> **Import to SimpleRFID**.
