

Create Transfer by Scanning from the Mobile

Create from Mobile

Create a transfer order by scanning items

Transfer Orders can be created from the web or the mobile app, however creating them from the mobile is disabled by default. To enable, navigate to the [Application Settings](#) in the Ship section

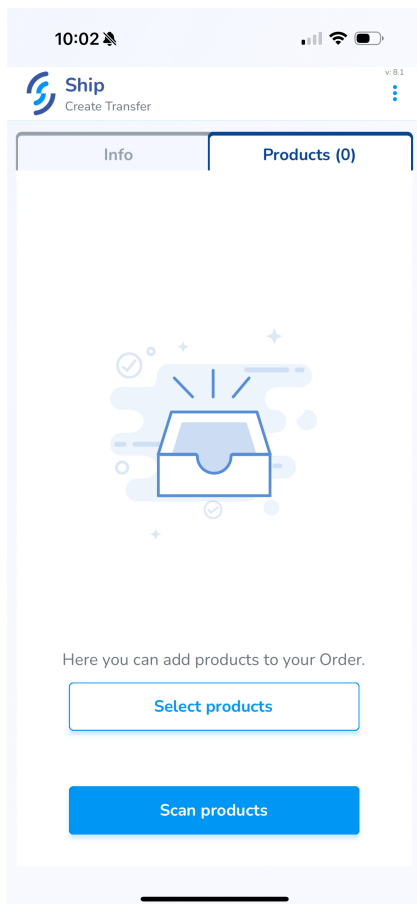

At the bottom of the Ship menu click the 'Create new transfer' button to create

+ Create new transfer

Info

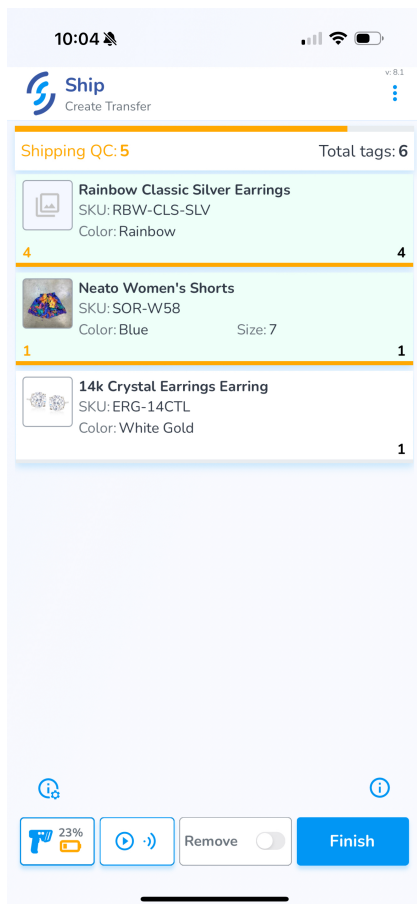

- Choose the location you are sending the transfer
- Enter any notes you wish to include in the Comments section

Scan Products

Click **Scan Products**

- [Pair Bluetooth](#)

Adding items via the Scan method adds items & quantities scanned to the order
