

Save Scans

Steps to save scans to the mobile device

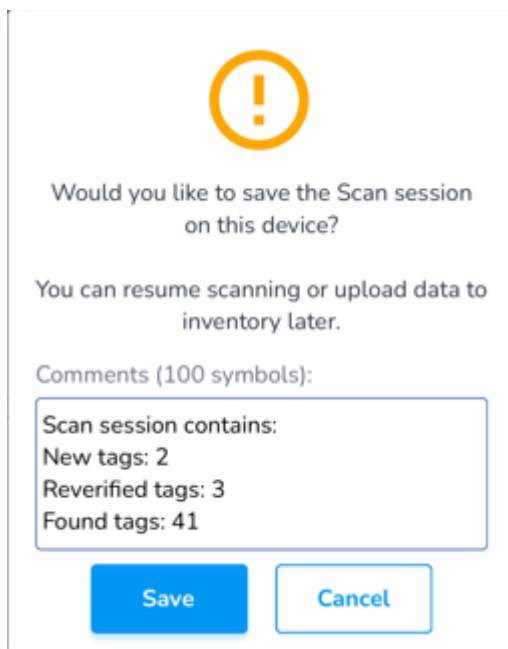

If you are unable to upload scan data due to poor internet connectivity you can save the results to the device for upload when service is restored

Save Scans

At the end of a scan session is the option to **Save on this device**

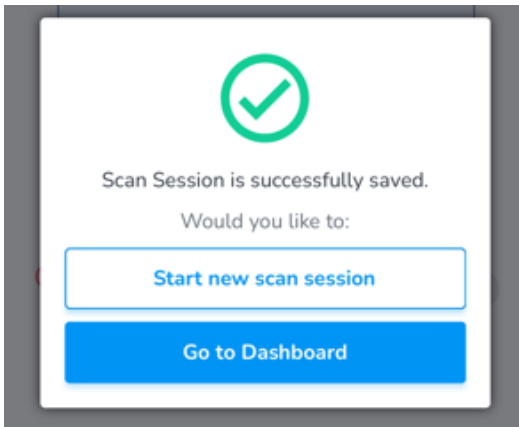

After clicking 'Save on this device' you will see a summary of the scan session and a prompt to Save or Cancel

A screenshot of a mobile app dialog box. At the top is a large orange circle with a white exclamation mark. Below it, the text reads: 'Would you like to save the Scan session on this device?'. Underneath that is the text: 'You can resume scanning or upload data to inventory later.' Below this is a section labeled 'Comments (100 symbols):' followed by a text input area containing the following text: 'Scan session contains:', 'New tags: 2', 'Reverified tags: 3', and 'Found tags: 41'. At the bottom of the dialog are two buttons: a blue 'Save' button and a white 'Cancel' button with a blue border.

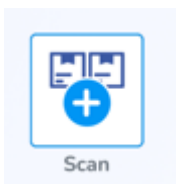

Click **Save**

A navigation prompt will then appear and ask if you wish to start a new scan session or go to dashboard

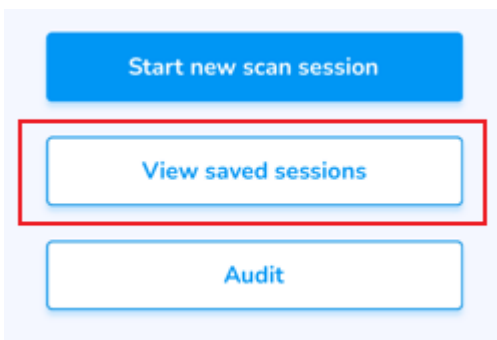

Continue a saved scan session

From the Home screen, click **Scan**

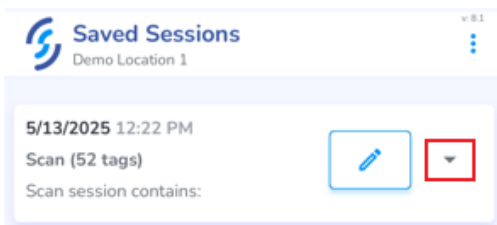

Click **View saved sessions**

This will display any **Saved Sessions**

Click on the arrow to open the scan session

Click **Continue** to continue or complete the session

Click the **Pencil icon** to name the scan

Click the **Trash Can icon** to delete the scan
