

Scan to Print Feature

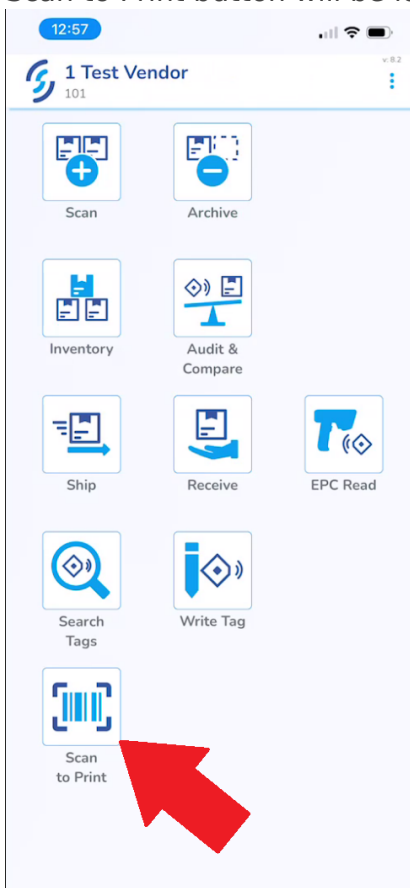

Print to Scan feature requires the Barcode to be unique to each product

1- Login to the Simple RFID mobile app

- Select your Business and Location

2- Select "Scan to Print"

- Scan to Print button will be located at the bottom of the home page

.3 - Select Printer and Label Layout

- At the top of the Scan to Print page you have the option to select a printer

- At the top right of the page you can select the label layout you'd like to print

4 - Scan the unique SKU/Barcode

- At this point you are ready to start scanning tags to print
- Once scanned it will give you the option to select the quantity of tags you'd like to print

The "Instant Print" feature will instantly create a Print Job for one tag

5 - Errors?

- If you run into any errors please feel free to reach out to support with the link below
