

Customer Profile: Audit Setting: Switching Audit Mode (Legacy mode / Advanced mode)

The system offers two modes for auditing: Legacy Audit, which is a basic flow, and Advanced Mode, which allows for more granular auditing and discrepancy resolving. These modes can be enabled or disabled from the customer profile menu using the switch button at all times.

You will need to be a **Manager** on the Simple RFID Web Portal to access this page

On the [SimpleRFID](#) web portal, click your account name and select **Customer Profile**.

Customers > Edit: [redacted]

Will be added later

○ Trials

☐ Deact

☐ Show Hidden Inventory

Page 10 of 10

Doing so will change the Audit process! Both modes have their own set of actions required for a successful Audit. **All active Audits will be canceled.**

The instructions for the Legacy Audit Mode can be found here: [Audit and Compare](#) and [Audit & Compare Shopify](#).

The instructions for the New Audit flow can be found here: [Audit - Shopify](#)
