

Label Layouts > All Layouts

Label layouts are the label designs which have been created and saved. From this page a user may also create new label designs.

- 1. Search window provides ability to search saved designs
- 2. Card for each saved design and includes Name, Label size, DPI, Saved date and time, and a preview of the design
- 3. "+" button located in the upper right corner of the screen to navigate to the Label Designer to create a new label design
- 4. Ability to import an existing design from another label editor
