

# Web Portal: Inventory Compare

This page is currently hidden and can be accessed by manually searching via the URL:  
[portal.simplerfid.com/inventory-compare](http://portal.simplerfid.com/inventory-compare)

From the inventory compare page a user can view RFID and Partner inventory numbers. This provides a simple interface which allows a user to review their products and initiate important actions.

The compare page contains the following elements:

- Search window
- Location Selector
- Filters for: Over expected, under expected, matched, and out of stock
- Checkboxes on the right to select a record(s)

## Configurable Columns

The page also allows the user to configure the product elements and display what matters to the user.

Click on the configuration icon on the right corner

- Choose the properties you wish included
- Drag the property to the order you wish it to appear

| Search...                                                                                                                                                  |                     | Location: Shop location | Audit                        | 1 ↑ Over expected | 0 ↓ Under expected | 61 ✓ Matched | 1 ↓ Out of stock         |
