

Uninstall Print Client

This article covers the problem with uninstalling the **Print Client** on Windows 10 and Windows 11 systems.

This error will prevent a new version of the print client from being installed and functioning properly.

First step is to uninstall the **Support Tool**.

Via **Settings** -> **Apps** -> **Installed apps**.

[image.png](#)

Or by using the Windows Search and typing "**Add or remove programs**".

[image.png](#)

Download the official [Program Install and Uninstall troubleshooter](#) from Microsoft.

[image.png](#)

Launch **MicrosoftProgram_Install_and_Uninstall.meta.diagcab**

[image.png](#)

Click **Advanced**.

[image.png](#)

Uncheck **Apply repairs automatically**.

[image.png](#)

Choose ***Uninstalling***.

[image.png](#)

Select **Simple RFID Print Client Updater** and click ***Next***.

[image.png](#)

Choose ***Yes, try uninstall***.

[image.png](#)

Make sure that ***Uninstall and cleanup?*** is checked. Click ***Next***.

[image.png](#)

The resolve process might take up to 2 minutes.

[image.png](#)

Once the resolve process is done, the following screen will appear.

[image.png](#)

After it's done, you will need to reinstall the **Support Tool** from [here](#).

The **Support Tool** will automatically install the **Print Client** once launched.

[image.png](#)

[image.png](#)

The **Print Client** is now installed correctly.
